

PHILIPPINES EXPANSION BUILDING FOR OUR FUTURE

PREPARE YOUR OUTSIDE WORK, MAKE IT FIT FOR YOURSELF IN THE FIELD; AND AFTERWARD BUILD YOUR HOUSE. PROVERBS 24:27

To all of our partners and friends,

As you can see, progress is being made towards the reconstruction of our house, located inside the MKMI compound in the Philippines. When we started this project back in July 2024, this house was literally falling apart. Our plumbing was old and rusted. The roof had holes everywhere. Termites and rats had been eating through the walls and stairs. Because of all the rain that leaked into the walls and electrical sockets, the house was a fire hazard and fire trap. And so we started in faith, with almost no money in the bank to fund this effort. Since then, God has faithfully supplied enough additional income to keep us going, and we praise Him for that. Our project engineer estimates the total cost of this project will be \$165,000. We're not borrowing money to pay for this - we are trusting God to supply these needs.

Thank you if you've prayed with us over this. Thank you if you've sent support to help us pay for this. With everyone's help, I'm confident we can make significant progress in the months to come. If you know my wife and I, you know we don't live lavish lives. We work diligently to be good stewards of God's money, honoring Him and those who choose to partner with us. Can we count on you to come alongside with faithful prayer and financial support? Here's how you can help us finish this project, using any of these 4 options to send in your designated support:
